WHO WE ARE

WOMEN IN PRINT ALLIANCE

Connecting and Advancing Women in the Print Community

Our mission is straightforward: to attract, retain, advance, and advocate for women in the printing industry through education, personal and professional development, networking and community building. Nonetheless, that's just the tip of the iceberg. Though we primarily advocate and promote women in the industry, we also seek to educate the broader printing industry community on the business and societal benefits of increased diversity, equity & inclusion - because bridging gender-based gaps and creating an industry culture in which women can thrive is a collective effort.

LISBETH LYONS BLACK
Director, Women in Print Alliance
